

Grain: World Markets and Trade

As European Wheat Supply Shrinks, Other Major Exporters Benefit

2002/03 World Wheat Trade

2003/04 World Wheat Trade

Europe = EU, Eastern Europe, Russia, and Ukraine

Majors = Argentina, Australia, Canada, and U.S.A.

Exportable 2003/04 supplies in Europe (EU, Eastern Europe, Russia, and Ukraine) plummeted as a harsh winter and summer drought reduced wheat production by more than a quarter. This dearth of European wheat is tightening global supplies and contributing to a drop in world ending stocks to a 22-year low. HRW FOB Gulf prices have climbed \$25/ton in the past two months.

European exports are forecast to fall nearly 65 percent (25 million tons) from last year. Ukraine and Eastern Europe are forecast to become net importers, purchasing most of their wheat from the EU and Russia. This will leave even less European wheat available for export to other markets. Argentina, Australia, Canada, and the United States will benefit from this situation as they regain markets lost last year.

--	-----------

Notice to readers : The *Grain: World Markets and Trade* circular series no longer includes a printed version of the *Historical Data Series for Selected Regions and Countries*. Beginning with the January 2003 publication, these historical tables are now only available electronically. The historical tables, along with an electronic version of the *Grain: World Markets and Trade* circular, are available via the FAS website (<http://www.fas.usda.gov/grain/>). The printed version of the circular will continue to include the *Summary Tables* and the *Situation and Outlook* reports.

Notes:

Wheat trade year statistics are on July/June years. Barley, corn, sorghum, rye, and oats trade year statistics are on Oct/Sept years. Rice trade year statistics are for the subsequent calendar year.

SITUATION AND OUTLOOK: COMMENTARY AND CURRENT DATA

WORLD WHEAT SITUATION AND OUTLOOK

Year-to-Year Changes: World wheat trade in 2003/04 is forecast at 95.6 million tons, down 11.6 million tons from 2002/03. Global production is down 17.1 million tons with global consumption down 15.1 million tons. Consumption is forecast to exceed production, thus global stocks are expected to fall by 35.2 million tons to 129.0 million, the lowest level in 22 years.

Changes from Last Month: Global wheat trade in 2003/04 is forecast down 500,000 tons from last month. Global production is down 2.3 million tons, largely due to reductions in the EU, Canadian, and Argentine crop. Global consumption is forecast to ease 650,000 tons. World ending stocks are forecast down 1.5 million tons.

Price: Early September export quotes for #2 HRW FOB Gulf averaged \$152/MT, up \$6 from last month.

2003/2004 Trade Changes

Selected Exporters

- **Argentina** down 1.0 million tons to 9.0 million as production is reduced due to smaller-than-expected area.
- **Australia** up 1.0 million tons to 15.0 million due to a larger prospective production.
- **China** up 500,000 tons to 1.3 million due to rising world prices.
- **Canada** down 500,000 tons to 14.0 million as lower production reduces exportable supplies.
- **EU** down 1.0 million tons to a 25-year low of 9.5 million due to falling production and strong domestic demand.
- **Kazakstan** up 500,000 tons to 6.0 million (second highest since 1988/89) due to abundant exportable supplies and stronger regional demand.

Selected Importers

- **China** down 500,000 tons to 500,000 due to rising world prices.
- **Iran** down 500,000 tons to 1.5 million as a second consecutive bumper harvest reduces need for imports.
- **Ukraine** up 300,000 tons to 2.5 million due to the lowest crop on record.

2002/2003 Trade Changes

Selected Exporters

- **Canada** up 200,000 tons to 9.4 million because of greater-than-expected, late-season shipments.
- **Poland** up nearly 500,000 tons to 1.1 million due to a stronger-than-expected export pace and final trade data.

Selected Importers

- **Algeria** up 400,000 tons to 5.5 million due to a stronger-than-expected, late-season import pace.
- **Russia** up 200,000 tons to 500,000 due to large June imports from Kazakstan.

NOTES: Regional definitions appear on last page of this circular. Imports are reported on an international year basis. All other data are reported using marketing years.

WORLD RICE SITUATION AND OUTLOOK

Year-to-Year Changes: Global trade in 2004 is estimated at 26.1 million tons, down 1.1 million tons from last year's estimate, due mostly to weaker than expected exports from India and the United States. Global production in 2003/04 is estimated at 390.5 million tons (milled basis), up 10.6 million tons from 2002/03. This increase is largely due to a rebound in India's crop. Global consumption in 2003/04 is estimated at 412.3 million tons and continues to outpace production. Global ending stocks in 2003/04 are estimated at 84.8 million tons, 21.9 million tons below 2002/03.

Price: Export price quotes have strengthened over the past month. Thai 100B increased \$4 and is currently quoted at \$204 per ton (FOB), mainly due to the appreciation of the Thai baht. Viet 5% is quoted at \$184 per ton, up \$5 from last month, mainly due to increased demand from Indonesia, Africa, and Iraq. India's 5% quote is at \$195 per ton, climbing \$3 for the month as the government halted sales from FCI stocks.

The price for U.S. long grain grade #2/4 is quoted at \$346 per ton, up \$33 from a month earlier and more than \$140 per ton higher than quotes for Thai 100B.

Trade Changes in 2004

Selected Exporters

- **United States** is up 100,000 tons to 2.9 million based on larger stocks than previously anticipated and strong demand from key markets.
- **India** is down 250,000 tons to 3.25 million due to lower exportable supplies.

Trade Changes in 2003

Selected Exporters

- **Argentina** is down 100,000 tons to 100,000 based on export pace to date.
- **Australia** is down 125,000 tons to 175,000 based limited exportable supplies and a slack export pace to date.

Selected Importers

- **Brazil** is up 100,000 tons to 1.1 million based on pace to date. The Government of Brazil has reduced the Common External Tariff due to high internal prices, which could increase imports from Thailand, the United States and Vietnam.
- **Costa Rica** is up 25,000 tons to 125,000 based on pace to date.

-
- **Ghana** is up 100,000 tons to 350,000 due to larger-than-expected imports, particularly from the United States.
 - **Iraq** is down 200,000 tons to 900,000 due to a slower import pace resulting from delays in executing Oil for Food contracts negotiated prior to the war.
 - **Russia** is up 50,000 tons to 400,000 based on larger-than-expected imports to date, mainly from China.

WORLD COARSE GRAINS SITUATION AND OUTLOOK

Year-to-Year Changes: World coarse grain trade in 2003/04 is down 2.6 million tons to 101.2 million. Global production is forecast up 11.7 million tons to 880.5 million, while consumption is forecast to rise 13.5 million tons to 916.2 million. Ending stocks are forecast to drop 35.7 million tons to 106.4 million, mainly due to heavy drawdowns of Chinese corn, Russian barley, and EU barley stocks. The global stocks-to-use ratio is forecast to be 11.6 percent, the lowest in USDA's database, which started in 1960/61. Compared to 2002/03, global corn trade is down 2.2 million tons to 76.5 million.

Changes from Last Month: Global coarse grain trade in 2003/04 is little changed. Higher Brazilian corn and Australian barley exports largely offset lower Hungarian corn and EU barley exports. Forecast ending stocks dropped 5.3 million tons since last month as the United States and the EU face diminished crop prospects.

2003/04 Trade Changes

Selected Exporters

- **Brazil corn** up 500,000 tons to a record 5.5 million due to reduced competition.
- **Hungary corn** down 300,000 tons to 700,000 because of a smaller forecast production.
- **United States barley** up 75,000 tons to 625,000 because of less competition.
- **Australia barley** increases 500,000 tons to 3.3 million based on greater crop prospects and reduced competition from the EU.
- **EU barley** down 800,000 tons to 4.5 million due to strong domestic feed grain needs.
- **United States sorghum** down 500,000 tons to 4.8 million because of a smaller crop.
- **Canada oats** up 200,000 tons to 1.5 million because of ample supplies; this is offset by a reduction in EU exports from 600,000 tons to 400,000 as the Commission is expected to limit exports to help cover domestic feed grain needs.

Selected Importers

- **Algeria corn** down 500,000 tons to 1.5 million due to flattening demand.
- **Chile corn** down 400,000 tons to 1.0 million because of better crop prospects.
- **Japan corn** up 500,000 tons to 16.0 million based on higher 2002/03 demand.

-
- **EU corn** increases 500,000 tons to 4.0 million due to a shortfall in domestic production and consequent rising domestic prices that enhance the competitiveness of duty-paid imports.
 - **Mexico sorghum** down 500,000 tons to 3.5 million because of tight U.S. supplies.

2002/03 Trade Changes

Selected Exporters

- **United States barley** down 75,000 tons to 575,000 due to a lackluster pace.
- **China corn** surges 1.0 million tons to 14.5 million due to a strong pace in recent months.
- **Hungary corn** up 300,000 tons to 1.5 million based on robust sales to the EU since July.
- **EU rye** down 125,000 tons to 700,000 due to tightness in overall feed supply; this is mostly offset by an increase in **Russian rye** exports from 300,000 tons to 400,000.

Selected Importers

- **Japan corn** increases 500,000 tons to 16.5 million because of a strong pace.

NOTES: Regional definitions appear on last page of this circular. Imports are reported on an international year basis. All other data are reported using marketing years.

ENDNOTES TO GRAIN: WORLD MARKETS AND TRADE

REGIONAL TABLES

North America: Canada, Mexico, the United States.

Latin America: Central America, the Caribbean, South America.

EU: Austria, Belgium/Luxembourg, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Netherlands, Portugal, Spain, Sweden, and United Kingdom.

Other Western Europe: Azores, Cyprus, Iceland, Malta & Gozo, Norway, Switzerland.

Former Soviet Union: Armenia, Azerbaijan, Belarus, Georgia, Kazakstan, Kyrgyzstan, Moldova, Russia, Tajikistan, Turkmenistan, Ukraine, Uzbekistan, Estonia, Latvia, and Lithuania. References to the FSU-12 include all of the above except for the Baltics (Estonia, Latvia, and Lithuania).

Eastern Europe: Albania, Bosnia-Herzegovina, Bulgaria, Croatia, Czech Republic, Hungary, Macedonia, Poland, Romania, Serbia and Montenegro, Slovakia, Slovenia.

Middle East: Bahrain, Iran, Iraq, Israel, Jordan, Kuwait, Lebanon, Oman, Qatar, Saudi Arabia, Syria, Turkey, United Arab Emirates, Yemen.

North Africa: Algeria, Egypt, Libya, Morocco, Tunisia.

Other Africa: all other African countries except North Africa.

South Asia: Afghanistan, Bangladesh, India, Nepal, Pakistan, Sri Lanka.

Other Asia: all other Asian countries except South Asia.

Oceania: Australia, Fiji, New Zealand, Papua New Guinea.

OTHER NOTES

Unless otherwise stated, stock data are based on an aggregate of differing local marketing years and should not be construed as representing world stock levels at a fixed point in time.

Consumption statistics reflect total utilization, including food, feed, seed, and differences in marketing year imports and marketing year exports.

The Grain and Feed Division, Commodity and Marketing Programs, Foreign Agricultural Service, USDA, Washington DC 20250, prepared this circular. Information is gathered from official statistics of foreign governments and other foreign source materials, reports of U.S. agricultural attachés and Foreign Service officers, results of office research, and related information. Further information may be obtained by writing the division or telephoning (202) 720-6219.

Note: The previous report in this series was the Grain: World Markets and Trade Foreign Agricultural Service Circular FG 08-03 August 2003. For further details on world grain production, see World Agricultural Production Foreign Agricultural Service Circular WAP 09-03 September 2003.

This circular is available in its entirety on the World Wide Web via the Foreign Agricultural Service Home Page. The address is: **<http://www.fas.usda.gov>**

Notes:

Wheat trade year statistics are on July/June years. Barley, corn, sorghum, rye, and oats trade year statistics are on Oct/Sept years. Rice statistics are rough basis; trade year statistics are for subsequent calendar year. Rounding errors in conversion from international units cause some discrepancies with World Board Supply and Demand Estimates.

Notes:

Coarse grains trade data are on July/June years through 1975/76. From 1976/77 to the present, coarse grains data are on an Oct/Sept trade year. "Stocks as a Percent of Consumption" represents the ratio of marketing year ending stocks to total consumption. Trade statistics exclude intra-EU15 trade.
