## Black Sea Region Wheat Exports to Drop by Half

Exports Expected to Fall Sharply...

...to Traditional Markets (03/04-05/06 Export Avg)

Note: Eastern Europe includes Bulgaria, Romania, Croatia, and Serbia and Montenegro

Black Sea region exports this year are forecast to fall by half as a result of sharply smaller exportable wheat supplies. Many countries in this region experienced very dry fall weather which reduced planted area, and combined with a harsh winter to shrink production. Strong export campaigns in 2005/06 also meant that stocks in the region did not build and therefore will not help offset this production shortfall. Domestically, reduced wheat production coupled with larger barley crops should result in a shift of feeding towards barley. Internationally, this smaller production will contribute to tight world supplies and expected higher global prices. It will also create opportunities for other suppliers such as the EU-25 and Argentina in key Mediterranean markets. Smaller Ukrainian supplies will also contribute to less global trade in feed-quality wheat, and some shift is likely to corn. EU-25 wheat import demand from the Black Sea region is expected to be replaced by larger domestic grain supplies, especially in Spain.

# WORLD MARKETS AND TRADE: COMMENTARY AND CURRENT DATA

## WHEAT: WORLD MARKETS AND TRADE

### MONTHLY HIGHLIGHTS:

**U.S. Hard Red Winter (HRW) Supply Expected to be Smallest in Over 30 Years:** HRW production this year is forecast to drop by more than a quarter as drought in key growing areas has decimated the crop. With carryin stocks remaining small as a result of very strong foreign demand in 2005/06, total supply will be at historically low levels. A sharply reduced exportable surplus will curtail exports and export prices have skyrocketed in past weeks to 10-year highs.

**HRW Supply Drops**  
(Carryin Stocks + Production)

\*Note: 05/06 includes accepted stocks + under offer – stocks sold as of the end of May

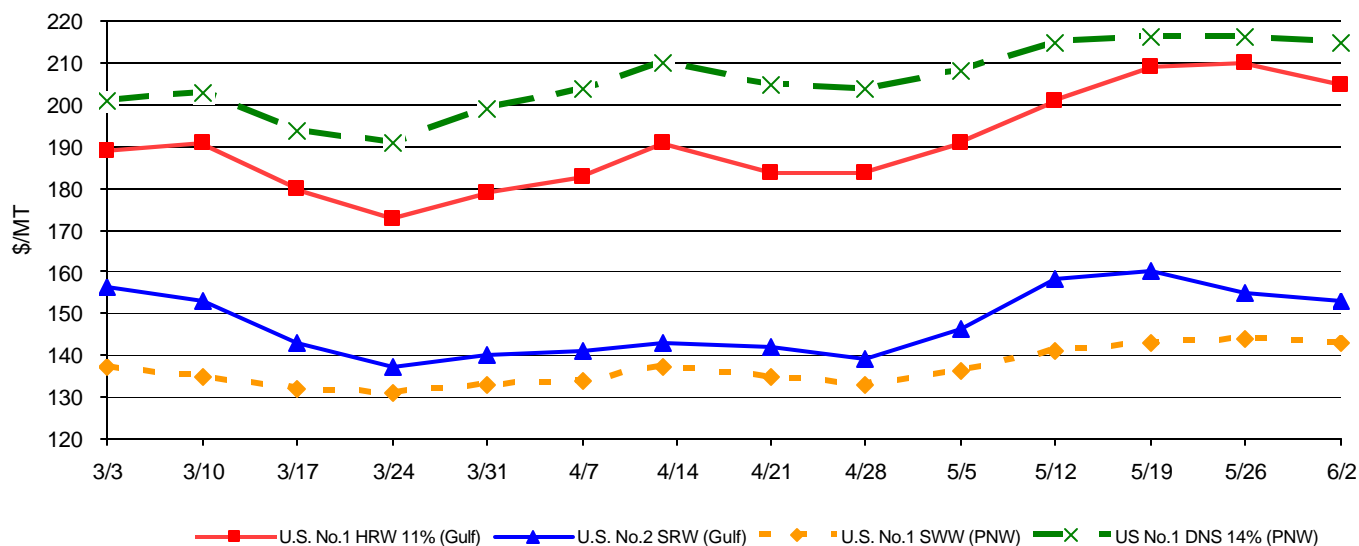

**EU Intervention Wheat Stocks Decline:** After swelling from nearly zero to almost 9 million tons last year, intervention wheat supplies this year have been drawn down by around 2 million

tons. With a smaller crop and higher domestic prices, less has been offered into intervention. Conversely, more has moved out as the Commission has been much more aggressive in selling for export. So far this year about 4.5 million tons of intervention wheat has been sold for export, compared to less than a million tons last year. This situation is in stark contrast to corn, where intervention stocks will likely double this year to about 6 million tons. While large amounts of corn were accepted into intervention for a second straight year, primarily in Hungary, the Commission has not sold any out for export and less than a million tons has been sold domestically. Barley stocks are only expected to grow slightly from last year.

## PRICES:

**Domestic:** Prices climbed for all wheat classes in May, especially at the beginning of the month, driven by the continued deterioration of the Hard Red Winter crop. For the month, HRW prices rose \$21 per ton, with SRW up \$14 per ton, HRS up \$11 per ton and Soft White up \$10 per ton.

**U.S. Weekly FOB Export Bids**

## TRADE CHANGES IN 2006/2007

### Selected Exporters

- **Argentina** is down 1.0 million tons to 9.5 million as lower area than previously expected will cut exportable supplies.
- **Pakistan** is up 450,000 tons to 500,000 as record production could result in exports to nearby markets.
- **Ukraine** is up 500,000 tons to 1.5 million due to higher estimated production. Exports are still expected to be only about a quarter of last year's level.

---

### **Selected Importers**

- **Algeria** is up 500,000 tons to 4.8 million reflecting a reduced crop estimate this month.
- **Morocco** is down 300,000 tons to 1.9 million, the lowest in nearly 10 years, as the result of a record crop.
- **Tunisia** is up 300,000 tons to 1.2 million on smaller expected production.
- **United States** up 100,000 tons to 2.7 million, a 5-year high, as a result of tight domestic supplies.

### **TRADE CHANGES IN 2005/2006**

#### **Selected Exporters**

- **Russia** is up 500,000 tons to 10.5 million with stronger than expected late-season exports.

#### **Selected Importers**

- **Morocco** is down 300,000 tons to 2.6 million on the sluggish pace of imports to date.
- **Nigeria** is down 200,000 tons to 3.7 million as purchases and imports, primarily from the United States, slowed considerably during the second half of the year.
- **Pakistan** is up 200,000 tons to 1.0 million with very strong imports from Russia.
- **Sudan** is up 200,000 tons to a record 1.6 million due to robust late-season imports, especially from Australia. A similar change was made to the 2006/07 forecast.

## RICE: WORLD MARKETS AND TRADE

### PRICES:

**International:** Asian prices are still showing a wide divergence between suppliers. In Thailand, prices remain high, sustained by large exports to Iran and Iraq and from strong buying interest in the Middle East. The appreciation of the Baht has also helped boost prices. Thai 100B is currently quoted at \$318 per ton, FOB, up \$7 from last month. Viet 5% is currently quoted at \$261 per ton, FOB, up \$9 from last month. Prices in India are down slightly; 5% is currently quoted at \$250 per ton, FOB.

Nominal Rice Quotes – 2002 to Present

**Domestic:** U.S. prices increased this month with U.S. #2/4 long grain milled rice quoted at \$379 per ton, FOB. The spread between comparable qualities of Thai and U.S. rice is \$61 per ton. Prices for U.S. #1/4 medium grain milled rice from California are currently quoted at \$475 per ton, FOB, unchanged from last month.

### TRADE CHANGES IN 2005

#### Selected Exporters

- Trade estimates are finalized based on year end data for **India**.

#### Selected Importers

- Trade estimates are finalized based on year end data for **Bangladesh, Cote d'Ivoire, Nigeria, and Somalia**.

## COARSE GRAINS: WORLD MARKETS AND TRADE

### MONTHLY HIGHLIGHTS:

**China's Corn Balance Sheet Changes:** Production for 2005/06 and 2006/07 has been revised upward by a combined 8.4 million tons, most of which raised domestic use (feed and industrial). Last month, a private Chinese corn processor signed a contract for the purchase of 52,000 tons of U.S. corn.

### PRICES:

**Domestic:** May export bids for #2 yellow corn were up \$3 per ton to \$111. Bids for #2 yellow sorghum (Texas Gulf) were up \$5 to \$114 per ton.

Corn prices continue their nearly 2-year ascent and are currently supported by strong export sales and record domestic demand, especially for ethanol.

Sorghum prices have returned to a premium to corn and are underpinned by food aid business and by the corn market.

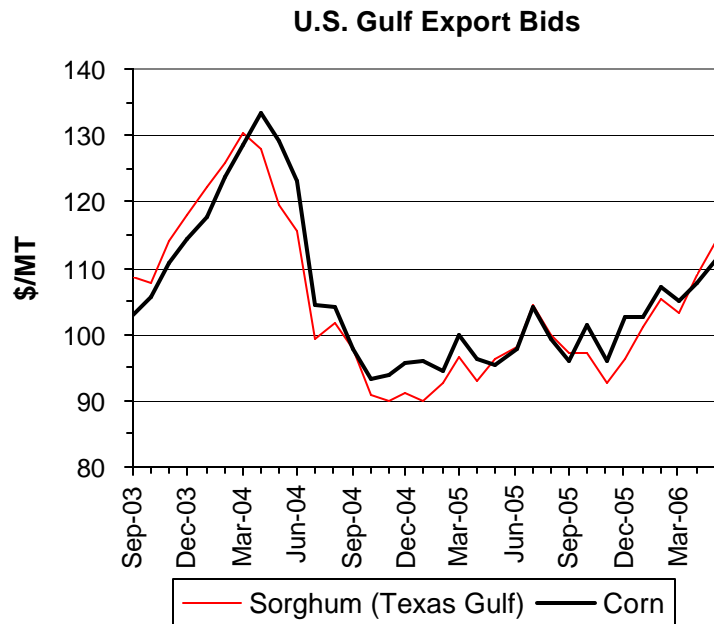

### TRADE CHANGES IN 2006/2007

#### Selected Exporters

- **Russian barley** is raised 500,000 tons to 2.0 million on a larger expected crop.

#### Selected Importers

- **Tunisia barley** is raised 300,000 tons to 500,000 and **Morocco barley** is raised 150,000 tons to 400,000 as a result of smaller expected production in these markets.
- **Indonesia corn** is doubled to 800,000 tons based on lower production.
- **Russia rye** is doubled to 100,000 tons as production is forecast at the lowest level on record.

---

## **TRADE CHANGES IN 2005/2006**

### **Selected Exporters**

- **United States corn** is up by 1.5 million tons to 53.5 million, the highest in 11 years, with a continuing rapid pace of sales and shipments while competition from China and Argentina remains muted.
- **Russia barley** is raised by 300,000 tons to 1.6 million as late-season exports have been stronger than anticipated.
- **China corn** is down by 1.0 million tons to 4.0 million, the lowest in 7 years, because of the absence of significant new sales.
- **EU-25 corn** is cut by 200,000 tons to 100,000 in the absence of transportation subsidies.
- **EU-25 barley** is lowered by 400,000 tons to 2.9 million on the slow issuance of export licenses or sales of intervention supplies for export.
- **EU-25 rye** is raised by 150,000 tons to 450,000 as a result of large recent sales of intervention supplies for export.

### **Selected Importers**

- **Indonesia corn** is up 200,000 tons to 1.0 million based on lower production and purchases to date.
- **Japan rye** is up 100,000 tons to 350,000 on expected continued strong shipments from the European Union.

Notes:

Trade year statistics are on a July/June year for wheat and an Oct/Sep year for coarse grains.

The Coarse Grains category includes barley, corn, millet, oats, rye, and sorghum.

Production estimates are on a clean-weight basis.

Notes:

Wheat trade year statistics are on July/June years. Barley, corn, sorghum, rye, and oats trade year statistics are on Oct/Sept years. Rice statistics are rough basis; trade year statistics are for subsequent calendar year. Rounding errors in conversion from international units cause some discrepancies with World Board Supply and Demand Estimates.

Notes:

Coarse grains trade data are on July/June years through 1975/76. From 1976/77 to the present, coarse grains data are on an Oct/Sept trade year. "Stocks as a Percent of Consumption" represents the ratio of marketing year ending stocks to total consumption.

## **ENDNOTES TO GRAIN: WORLD MARKETS AND TRADE**

### **REGIONAL TABLES**

**North America:** Canada, Mexico, the United States.

**Latin America:** Central America, the Caribbean, South America.

**EU:** Austria, Belgium/Luxembourg, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Malta, Netherlands, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, United Kingdom.

**Former Soviet Union:** Armenia, Azerbaijan, Belarus, Georgia, Kazakhstan, Kyrgyzstan, Moldova, Russia, Tajikistan, Turkmenistan, Ukraine, Uzbekistan.

**Other Europe:** Albania, Azores, Bosnia and Herzegovina, Bulgaria, Croatia, Gibraltar, Iceland, Macedonia, Norway, Romania, Serbia and Montenegro, Switzerland, Yugoslavia.

**Middle East:** Bahrain, Iran, Iraq, Israel, Jordan, Kuwait, Lebanon, Oman, Qatar, Saudi Arabia, Syria, Turkey, United Arab Emirates, Yemen.

**North Africa:** Algeria, Egypt, Libya, Morocco, Tunisia.

**Other Africa:** all African countries except North Africa.

**South Asia:** Afghanistan, Bangladesh, Bhutan, India, Nepal, Pakistan, Sri Lanka, Maldives.

**Southeast Asia:** Brunei, Burma, Cambodia, Indonesia, Laos, Malaysia, Philippines, Singapore, Thailand, Vietnam.

**East Asia:** China, Hong Kong, Japan, South Korea, North Korea, Macau, Mongolia, Taiwan.

**Oceania:** Australia, Fiji, New Zealand, Papua New Guinea.

### **OTHER NOTES**

**Stocks:** Unless otherwise stated, stock data are based on an aggregate of differing local marketing years and should not be construed as representing world stock levels at a fixed point in time.

**Consumption:** World totals for consumption reflect total utilization, including food, seed, industrial, feed, and waste; as well as differences in marketing year imports and marketing year exports. Consumption statistics for regions and individual countries, however, reflect food, seed, industrial, feed, and waste only.

**EU Consolidation:** The trade figures for the EU-25 for the years 1999/00 through 2002/03 are inflated by the two-way trade between the two groups (EU-15 and acceding 10). Over the past 6 years, this “intra-trade” has averaged about 700,000 tons for wheat, 350,000 tons each for corn and barley, and 150,000 tons for rye. The trade figures also include intra-trade between members of the acceding 10. From 2003/04 onward, all intra-trade has been removed.

**Statistics:** (1) Wheat trade statistics include wheat, flour, and selected products on a grain equivalent basis. (2) Rice trade statistics include rough, brown, milled, and broken on a milled equivalent basis. (3) Coarse grains statistics include corn, barley, sorghum, oats, rye, millet, and mixed grains but exclude trade in barley malt, millet, and mixed grains.

---

**Unaccounted:** This term includes grain in transit, reporting discrepancies in some countries, and trade to countries outside the USDA database.

The Grain and Feed Division, Commodity and Marketing Programs, Foreign Agricultural Service, USDA, Washington DC 20250, prepared this circular. Information is gathered from official statistics of foreign governments and other foreign source materials, reports of U.S. agricultural attachés and Foreign Service officers, results of office research, and related information. Further information may be obtained by writing the division or telephoning (202) 720-6219.

**Note:** The previous report in this series was the Grain: World Markets and Trade Foreign Agricultural Service Circular FG 05-06 May 2006. For further details on world grain production, see World Agricultural Production Foreign Agricultural Service Circular WAP 06-06 June 2006.

This circular is available in its entirety on the World Wide Web via the Foreign Agricultural Service Home Page. The address is: <http://www.fas.usda.gov>
