

Oilseeds: World Markets and Trade

China's Protein Meal Use Comparatively Strong

Protein meal use in China (on a soybean meal equivalent (SME) basis) is expected to nearly double the level of just 7 years ago, driven by the growing use of commercial feed in the expanding swine, poultry, and aquaculture sectors. Small-scale swine operations have become more specialized, sophisticated, and larger. These operations are also now using more commercially-produced feed that contains a higher percentage of soybean meal.

By comparison, protein meal use in the EU and the United States has been relatively stable. In the EU, the availability of feed grains, particularly feed quality wheat, has limited the growth of protein meal use. In the United States, increasing availability and use of competitively priced distiller's dried grains, continues to displace some soybean meal.

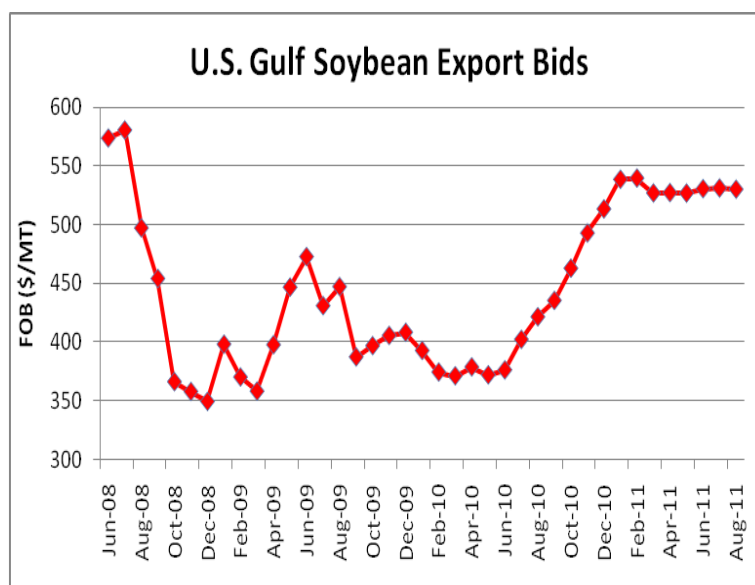

OVERVIEW

Global soybean trade is raised this month reflecting larger U.S. exports resulting from increased exportable supplies. Global production is higher on gains in the United States, India and the EU. Global demand for soybean meal and oil is expected to be strong. U.S. season average price is at a record.

SOYBEAN PRICES

U.S. export bids, FOB Gulf, in August averaged \$530 per ton, continuing at the level seen since March. Dry weather in parts of Midwest and concerns over crop prospects have supported prices.

As of the week-ending September 1, U.S. soybean commitments (outstanding sales plus accumulated exports) to China totaled 25.6 million tons, compared to 23.2 million a year ago. Total commitments to the world are 42.3 million tons compared to 41.3 million for the same period last year.

2011/12 TRADE OUTLOOK

- **U.S.** soybean exports are raised 400,000 tons to 38.5 million reflecting a larger crop.
- **Canada's** rapeseed exports are up 200,000 tons to 6.8 million on a larger crop.
- **Brazil's** soybean meal exports are cut 500,000 tons to 14.4 million to reflect reduced crushing.
- **India's** soybean meal exports are up 500,000 tons to 4.4 million supported by larger crushing.
